

DURABLE MOULDS AND CUSTOMIZED **PRODUCTS**

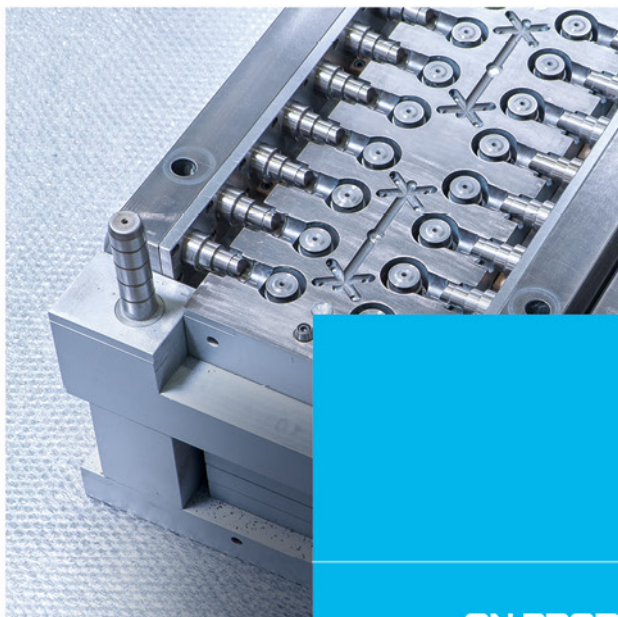

Plastic Injection mould manufacturing

DURABLE MOULDS AND CUSTOMIZED PRODUCTS

For 20 years in the field of
plastic injection moulds,
we have been providing
quality, robust and
durable products.

ABOUT US

We are a team who had come together to give shape to every type of plastic and produce engineering solutions.

Our team of professionals possesses education of international standards and technical equipment, and is purposefully directed to produce top notch technological systems and is able to provide these systems to their customers in a manner of quality.

Our CNC machines and harnessing equipment are of high-quality and programmed with the logic of mass production.

All of the engineering solutions are discussed in the environment of computerized design and analysis in pre-production phase and our customers are served with this quality of approach.

For 20 years in the field of plastic injection moulds, we have been providing quality, robust and durable products.

PPR-C

Sanitary Fittings Moulds

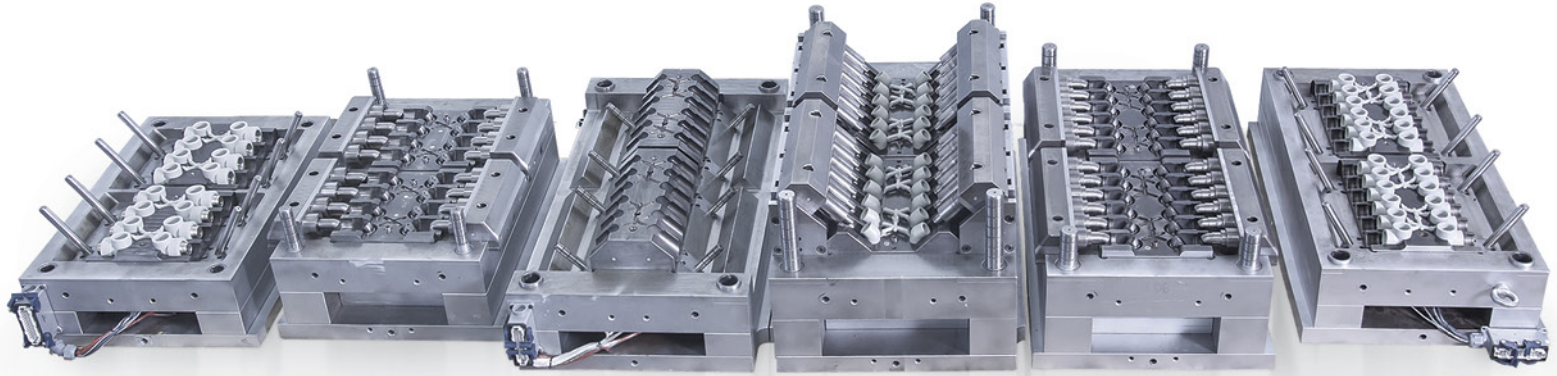

MATERIALS

PPR-C / PERT / PE
(with Brass inserts)

TECHNOLOGIES

- Durable mechanism
- Effective cooling system
- Certified steels
- POLINAR hot runner manifold system
- Quick cycle time

POLINAR
her şey çekirdekten gelişir

**DURABLE MOULDS
AND CUSTOMIZED
PRODUCTS**

www.polinar.com.tr

PP

Sewage Fittings Moulds

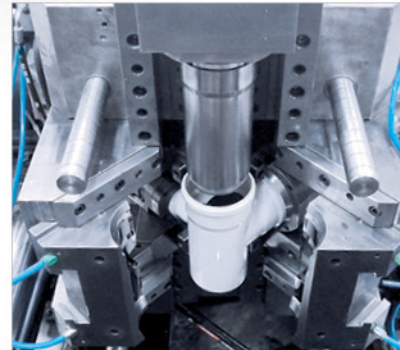

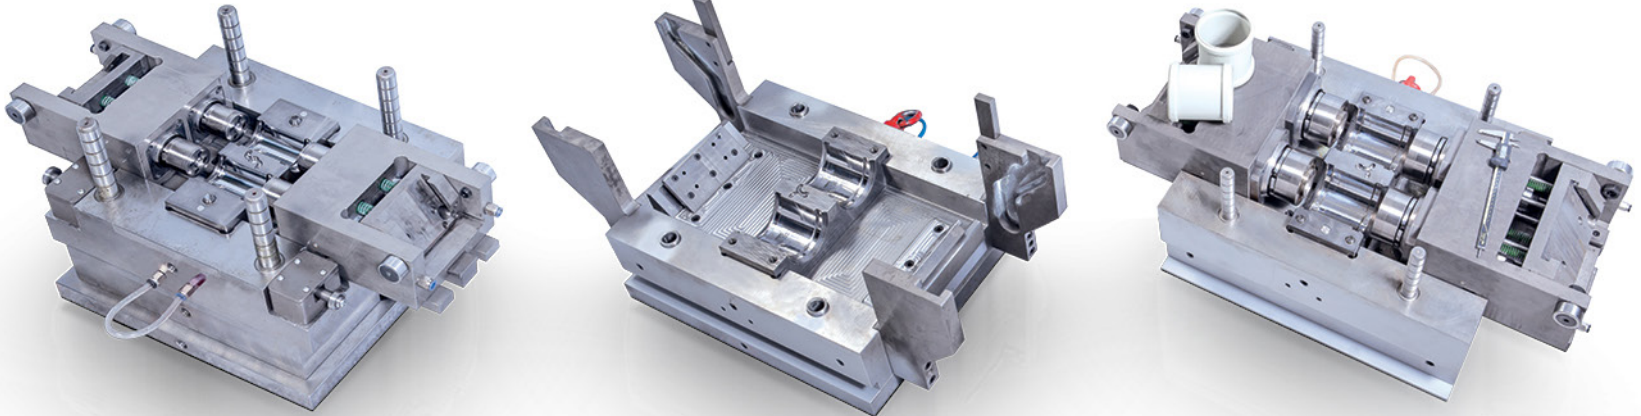

MATERIALS

PP-H / PP-B / PE /
Filled Polymers

TECHNOLOGIES

- > Durable mechanism
- > Certified steels
- > Quick cycle time
- > Effective cooling system
- > Robust POLINAR core system
- > POLINAR CAM system - core pulling
- > POLINAR hot runner manifold system

POLINAR
her şey çekirdekten gelişir

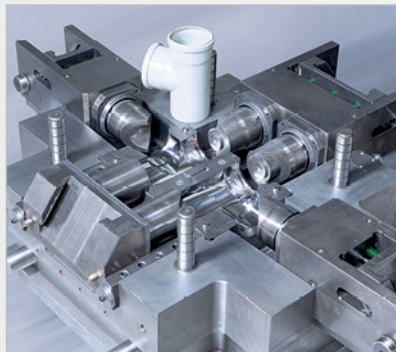

**DURABLE MOULDS
AND CUSTOMIZED
PRODUCTS**

PVC

Sewage Fittings Moulds

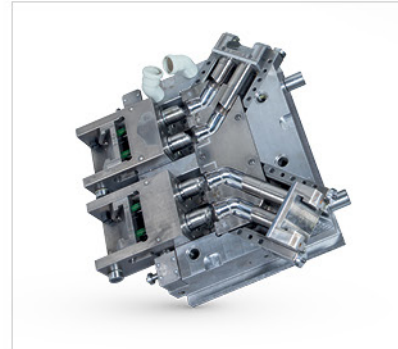

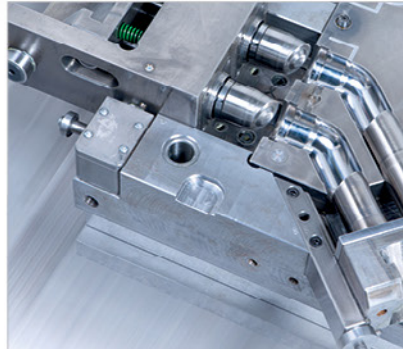

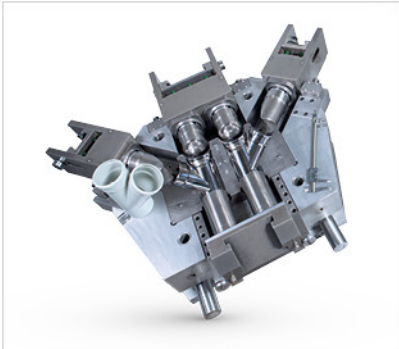

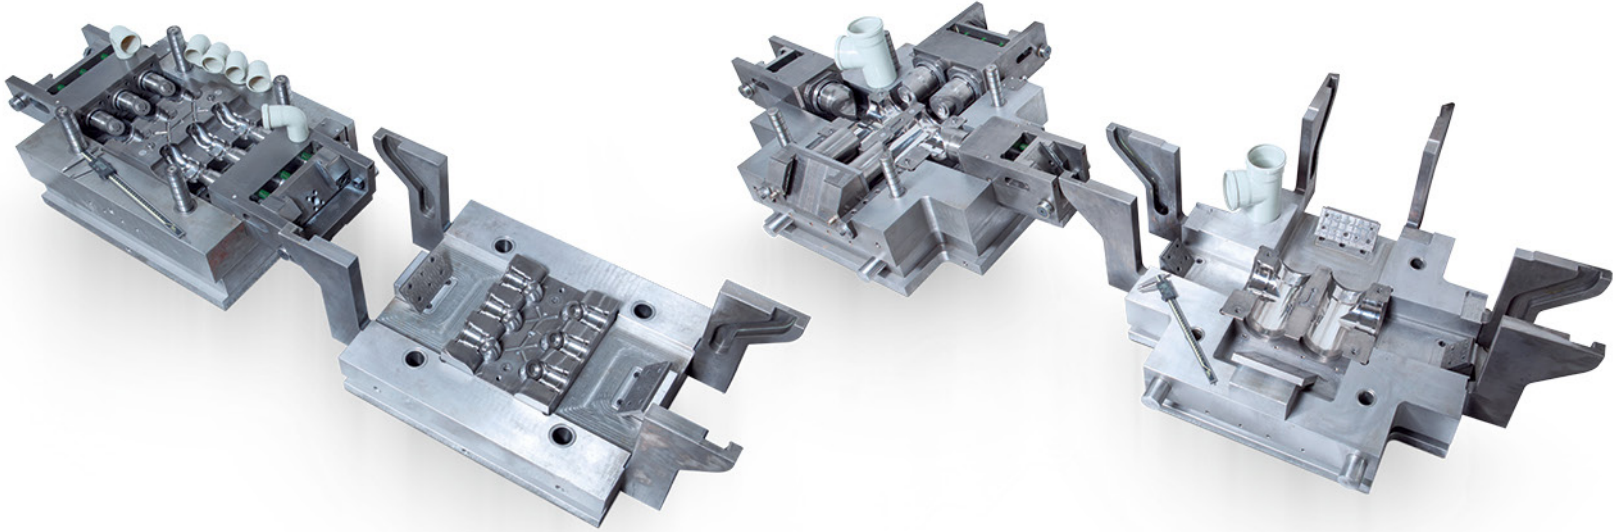

MATERIALS

PVC / PVC-U / C-PVC /
Filled Polymers

TECHNOLOGIES

- > Durable mechanism
- > Stainless steel cores and pins
- > Quick cycle time
- > Effective cooling system
- > Robust POLINAR core system
- > POLINAR CAM system - core pulling
- > POLINAR hot runner manifold system

POLINAR[®]

HDPE

Butt Welding Fittings Moulds

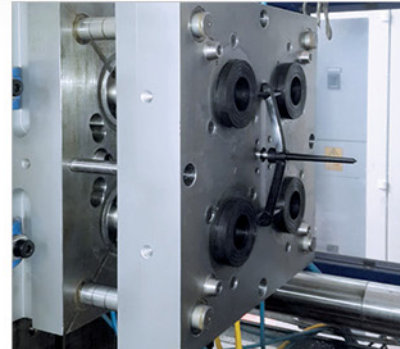

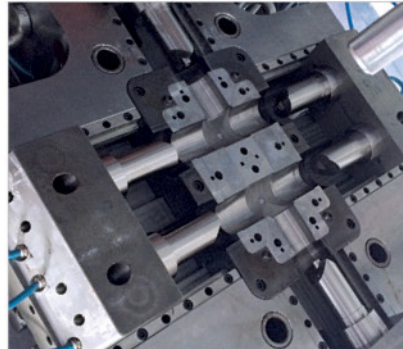

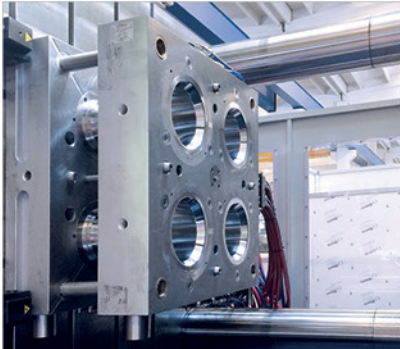

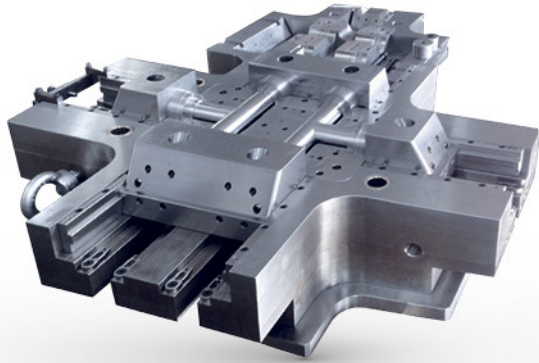

MATERIALS

HDPE100 / LDPE / MDPE

TECHNOLOGIES

- > Durable mechanism
- > Certified steels
- > Quick cycle time
- > Modular concept of moulds with inserts
- > Effective cooling system
- > POLINAR hot runner manifold system

POLINAR
her şey çekirdekten gelişir

PVC-U

Glue System Fittings Moulds

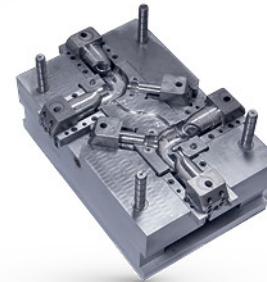

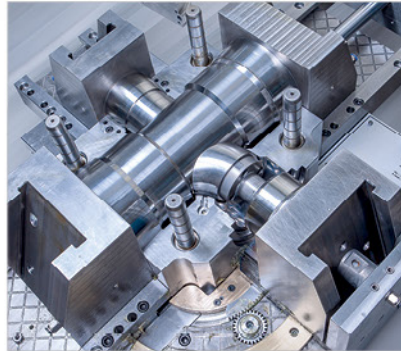

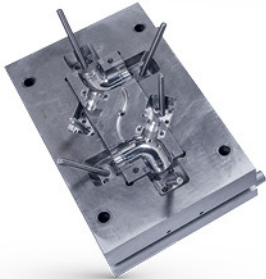

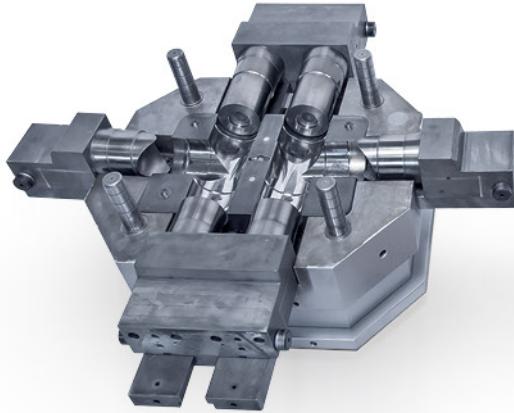

MATERIALS

PVC / PVC-U / C-PVC /
Filled Polymers

TECHNOLOGIES

- > Durable mechanism
- > Stainless steel cores and pins
- > Quick cycle time
- > Effective cooling system
- > Robust POLINAR core system
- > POLINAR CAM system - core pulling
- > POLINAR hot runner manifold system

PP

Irrigation Systems Moulds

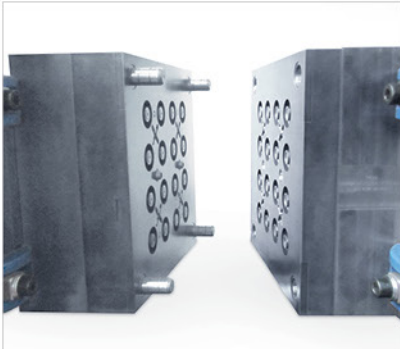

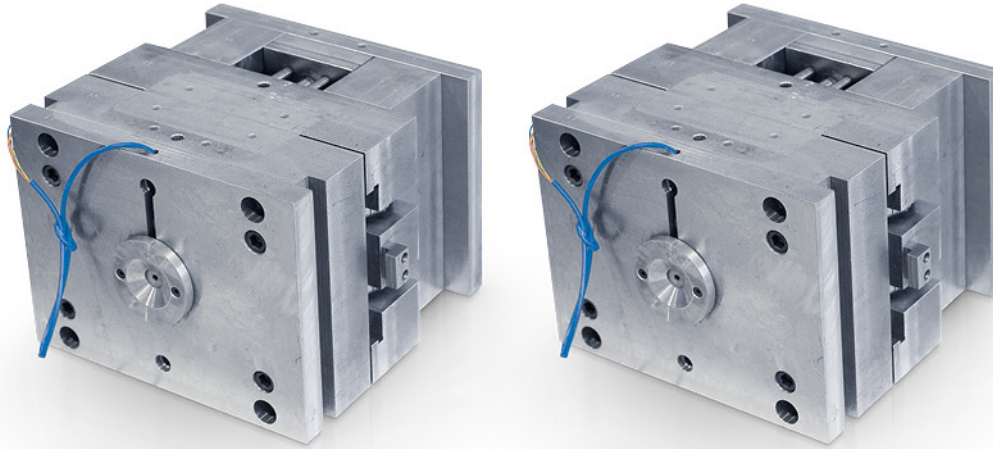

MATERIALS

PVC / PVC-U / C-PVC /
Filled Polymers

TECHNOLOGIES

- › Durable mechanism
- › Stainless steel cores and pins
- › Quick cycle time
- › Effective cooling system
- › Robust POLINAR core system
- › POLINAR CAM system - core pulling
- › POLINAR hot runner manifold system
